

The Interrupting Annotator

presents

C-SPAN KARAOKE

FREE SOFTWARE FOR COLLABORATIVE AND CONVIVIAL VIDEO VIEWING

C-SPAN KARAOKE displays media that streams from public archives of the CSPAN.org website, along with karaoke tunes gleaned from various free offerings on the web. So, gather together with friends and loosen up those vocal cords...

While you are navigating the flows of numbing institutional processes, faithfully and invaluabley documented by CSPAN, you can always break out in song...and the louder the better. Use CSPAN KARAOKE and your voice in collective chorus with friends, to navigate CSPAN video streams - whether these be representations of illegitimate authority or suspect versions of reality. Sing with conviction, because *resonant frequencies have been known to shatter glass*.
